Dear Beef Producers,

Welcome to our Annual Spring Production sale and our 58th year of continuous seed stock production.

With the beginning of a new decade we look with great optimism that the cattle sector will emerge with positive influence on the entire cattle industry. As a seed stock supplier, we understand our responsibility of producing functional and productive seed stock that will be profitable for the commercial cattleman. We feel that the reputation genetics offered in this sale will accomplish your goals and will stand against the best in the industry.

The Cowman's Kind sale has been developed to offer a blend of moderate birth, maternal milk, and mothering ability with as much performance as our environment will allow and still keep everything in balance along with carcass merit.

Our hallmark and the ultimate end goal for our program is the cow, the factory, in short a better beef animal, one that reaches puberty and breeds on time as a heifer. She needs to calve unassisted, raise a thrifty calf, and breed back in a timely manner. A quality cow needs to do this on a limited amount of supplemental feed and should be problem free in terms of eyes, udders, and feet. In addition, they need to have a good disposition and be easy to handle. Although there are no real EPDs to measure most of these traits, we work hard on a daily basis to assure you the cattle you select from this sale have been constantly graded for these convenience traits.

At Candy Meadow Farms we take a team effort approach and I appreciate the talents of JR Huckstep, Eddie White, and Holli Helms. We appreciate their willingness, dedication, and ability to make this farm function.

If you are in need of top genetics from any of the three breeds offered, we invite you to join us Saturday, March 27, 2010 at 11:00 a.m. for lunch and the sale will begin at 12:00 noon.

Sincerely,

Rob Helms

See Directions to
Candy Meadow Farms on page 2.

Sale Day Phones:
(731) 968-9977 • (731) 571-8213

Sale Location: Candy Meadow Farms, Lexington, Tn. Follow Hwy. 412 East approximately 2 miles from the city limits of Lexington, then 5 miles South. (sale signs will be posted)

Accommodations: Days Inn, Lexington, Tn 731-968-1997
Lexington Inn, Lexington, Tn 731-968-8585
Western Shores Lodge, Lexington, Tn 731-968-0171

Trucking: Free delivery up to 300 miles on purchases of \$3500.00 or more.

Fertility: All bulls selling have been fertility tested and will be accompanied by proper health certificates.

Herd Health: Candy Meadow Farms is a certified and accredited herd. All cattle selling will be accompanied by proper health papers for interstate shipment. Bulls have been vaccinated for 7 way blackleg, IBR, BVD, PI3, BRSV, 5 way Lepto, Vibrio, and have been wormed with Cydectin.

Terms and Conditions: The cattle sell under the suggested Terms and Conditions of their respective Breed Association. Settlement must be made day of sale.

Insurance: Insurance for your purchases will be available at the clerk's desk through Harding and Harding agent Jerry Gay.

Lunch: A complimentary lunch will be served.

Liability: All persons attending this sale do so at their own risk. Neither Candy Meadow nor any of their employees will be responsible for any accidents that occur.

The Latest Performance Data: Current EPDs are included with each lot. Actual birth weights and adjusted 205 day weights are also included.

Practical Bull Development: At Candy Meadow we pride ourselves in producing professional bulls. Among other things this has to do with how the bulls are developed. We feed a high roughage ration in huge runs that insure the longevity, structural soundness, and fertility of our bulls.

Some of our seedstock development strategies:

1. We run our seedstock under the same conditions as any top commercial producer would. Result: Our cow production records are honest and reflect their true genetic potential.
2. We do not creep feed our bull calves or sort any of them off for special treatment. Result: Records are more meaningful for both ourselves and our customers use.
3. We feed a high roughage ration designed for 3 pounds per head daily gain. Result: Bulls do not get over fat and maintain their body condition better when turned out and are ideally suited for grass consumption.

"Order Your Choices Sight Unseen": If you can't attend the sale and you want to buy, call Rob Helms at 731-968-9977 and let us select your genetics!

- Call us preferably at least a week before the sale. Describe the type of bull(s) or female(s) that you would like and your budget range.
- We will bid on and purchase the best animal possible to fit your needs.
- You pay only the bid price, just as if you were bidding yourself.
- We will call you after the sale, and then you mail a check.
- All sight unseen sales are made with a 100% satisfaction guarantee.

CMF 40D Dominette 526J – Dam of Reference Sire J

- Top 10% of the breed for milk.
- Top 15% of the breed for milk and growth.
- Top 15% of the breed for marbling.
- I have always admired the Pat Wilson program for their discipline program over the years and identified PW X101 Victor 7024 as one of their best. First, being sired by X101 who has had as much influence as any bull in that herd and second, being backed up by a dam and grandam that are both dams of distinction. Wilson 863S's dam is backed by 5 consecutive generations of top AI sired in the following order: 434V, 103T, 15G, F243, Vindicator. Five of the most time tested, user friendly, breeder confidence sires in the industry.
